"I firmly believe people who are doing good work need to be paid. Part of the problem we're seeing right now is the effect of that. The OpenSSL people are making two grand a year. I think that TrueCrypt threw in the towel for similar reasons. You're fighting the good fight, too. You need my backing, and I'm delighted to give it to you. Your whole opus makes the world a better place."

Cryptome welcomes documents for publication that are prohibited by governments worldwide, in particular material on freedom of expression, privacy, cryptography, dual-use technologies, national security, intelligence, and secret governance -- open, secret and classified documents -- but not limited to those. Documents are removed from this site only by order served directly by a US court having jurisdiction. No court order has ever been served; any order served will be published here -- or elsewhere if gagged by order. Bluffs will be published if comical but otherwise ignored.

"I firmly believe people who are doing good work need to be paid. Part of the problem we're seeing right now is the effect of that. The OpenSSL people are making two grand a year. I think that TrueCrypt threw in the towel for similar reasons. You're fighting the good fight, too. You need my backing, and I'm delighted to give it to you. Your whole opus makes the world a better place."

Cryptome welcomes documents for publication that are prohibited by governments worldwide, in particular material on freedom of expression, privacy, cryptography, dual-use technologies, national security, intelligence, and secret governance -- open, secret and classified documents -- but not limited to those. Documents are removed from this site only by order served directly by a US court having jurisdiction. No court order has ever been served; any order served will be published here -- or elsewhere if gagged by order. Bluffs will be published if comical but otherwise ignored.
